RE: 43 North Fence Approval Request

Ms. Ice

We are in receipt of your request for approval to construct a fence in the rear portion of your property on Lot 12 in the 43 North neighborhood. After review of your proposed location, materials, and reason for the request (as attached) we are granting approval of your request based on the following conditions.

1) Per the 43 North Bylaws Section 6.1.5 allows for fences providing privacy for play areas with prior approval from the Developer.
2) The request for privacy for a play area for co-owners dog is deemed to be a reasonable fit for this section. This approval is granted contingent on home owner removing no underbrush and trees to the rear of the property, to maintain the six (6) evergreens referred to in section II (a) and to provide ample plantings as referred to in section II (c) of co-owners fence information submittal (also attached for reference). And also in supplemental email dated May 1, 2017 (also attached).
3) The fencing material of commercial grade aluminum fence as submitted is approved.

This approval letter satisfies the prior Developer approval and allows the home owner to move forward with the proposed fencing. If there are any questions or further needs please let us know. I can be reached at jklaasen@jimtibbehomes.com or 616.633.8317

Thank you,

Jeff Klaasen
Wolven Investments LLC as Developer for 43 North

Hi Jeff,

Thanks for following-up. I have reattached our plot map with more detail on the landscaping. I've drawn landscaping beds in solid brown lines (3 total), and noted shrubs and trees in green dots and X's respectively. We have met with an edging company and are planning to put in decorative concrete edging around the beds this summer for a clean look (an example of their work is attached). The landscaping around the front of the house is already in place, so we would just be adding more on the sides of the house and in the front and side of the fence.

Here is a more detailed plan for landscaping:

Left side of fence:

- 3 pines (inside fence) and 3 cedars (outside fence) that border fence

Left front of fence:

- Extend landscaping bed to corner of fence
- Plant flowering tree (Juneberry) at front corner of fence
- Plant flowering shrubs (hydrangeas, weigela, etc) in bed along house/fence

Right side of fence:

- Landscaping bed marked on plot that will contain flowering shrubs (hydrangeas, peonies, etc)

Right front of fence: (*note this is down a slope in the yard and not very visible from the road)

- Extend landscaping bed from front of house to front of fence and include mix of shrubs (small evergreens, flowering plants, hostas, etc)
- Magnolia tree (already planted) on front right side of fence

Hopefully this provides all the information you are looking for, but please let me know if you have any other questions, thanks!
