MINUTES
Township Board Meeting
Tuesday, August 9, 2016
Township Hall, 10531 Algoma Ave. NE,
Rockford, MI 49341
7:00 PM

CALL TO ORDER / PLEDGE OF ALLEGIANCE / ROLL CALL

PRESENT: Supervisor Clary, Clerk J. Bigney, Treasurer Ellenwood, Trustees W. Bigney, Pickerd and Powell.

ABSENT: None

OTHERS PRESENT: Fire Chief Guerra, Deputy Fire Chief Falk, Deputy Supervisor Gallagher, Tom Ungrey, Lindsey Dorfman (KDL), Jennifer German (KDL), Julius Suchy (Village of Sparta), Gary Nestle (Sparta WWTP), Attorney Jim White, Township Engineer Bob Bruggink and Cameron VanWyngarden (Plainfield Twp)..

Supervisor Clary called the meeting to order at 7:00 pm followed by the Pledge of Allegiance to the US Flag.

PUBLIC COMMENTS AND PRESENTATIONS

There were no general public comments.

KDL ANNUAL REPORT:

Local members from the Kent District Library were present and gave the annual KDL financial and usage report.

SPARTA WASTE WATER TREATMENT PLANT UPGRADES:

Julius Suchy, Sparta Village Manager along with Gary Nestle from Infastructure Alternatives gave a presentation on the Village Waste Water Treatment Plant upgrades. They noted that where possible they were refurbishing equipment not just replacing to save costs.

Supervisor Clary reported that township staff have met with the village staff a number of times regarding Algoma's share of the billing charges and have requested the breakdown of costs with the quarterly billing so that we know exactly what is being charged. This has helped greatly.

AGENDA APPROVAL

Motion to approve the Agenda as presented.
Moved By Gordon Pickerd, Seconded By Wayne Bigney
Motion carried.

PUBLIC HEARINGS

NEW BUSINESS

43 NORTH SITE CONDOMINIUM PHASE 2 (RES 37-16):

Dale Kraker from Wolven Investments was asked by Supervisor Clary to review the project for the Board. Mr. Kraker explained that his company has applied for Phase 2 of the development 43 North Site Condominium, which is a residential development that would consist of 18 site condominium units, for one detached single-family dwelling each.

Supervisor Clary stated that the Planning Commission held a public hearing on the preliminary site condominium plan at its July 19 meeting and following the hearing and further discussion the Planning Commission recommended unanimously that the Township Board approve the final site condominium plan upon the terms and conditions included in the Planning Commission's Resolution No. SP1312(R).

The Planning Commission resolution includes a recommendation that the Township Board grant variances with respect to sidewalk construction in the site condominium, so that a sidewalk would be required only along the west side of Lapham Drive and that a sidewalk would not be required along Lapham Court. The resolution also conditions approval of the final plan on the effectiveness of Township Ordinance No. 286, which rezoned the site condominium lands to the R-1 District.

Trustee W. Bigney questioned the consistency of sidewalks within developments. Using 43 North as an example which is only required to have sidewalks on one side while other developments have been required to have sidewalks on both sides. Treasurer and Planning Commission Representative Ellenwood explained that the initial 43 North Site Condominium plan was approved with sidewalks only required on one side and to keep the continuity of the development the Planning Commission agreed to only require sidewalks on one side in Phase 2 of the development. Chapter 24 of the Township Zoning Ordinance authorizes such variances regarding sidewalks, if recommended by the Planning Commission.

Motion to approve Resolution No 37-16 (a resolution approving final Site Condominium Plan [43 North, Phase 2, Site Condominium]).

Moved By Deborah Ellenwood, Seconded By Gordon Pickerd

Motion carried. Resolution declared adopted.

10 MILE RD CORRIDOR WATER/SEWER DISTRICT EXPANSION:

Supervisor Clary asked Attorney Jim White to give overview of the item. Attorney White explained that currently there are water and sewer agreements in place with Plainfield Township and the North Kent Sewer Authority (NKSA) that establish the districts.

The desire to expand the districts started the process of these new agreements. Issues to address have been the connections to the facilities and the clean up of ambiguous language within the existing agreements. The new agreements will replace the existing agreements hence the titles "Amended and Restated".

There will also be needed amendments to ordinance provisions after these agreements are finalized.

Regarding the Infrastructure and Financing Agreement, Attorney White explained that the agreements are set up so that costs will be born by the developers of the land or users of the system, including potential sewer west of US-131.

The next step after agreements are approved by Algoma Township is for Plainfield Township and the NKSA constituent municipalities to approve them. Then also agreements with the developers of the land and review of Algoma's existing ordinance.

Clerk J. Bigney asked if there was any anticipation of issues with the NKSA constituent municipalities consenting to the inclusion of Algoma Township. Cameron VanWyngarden from Plainfield Township said while there had been concerns earlier over Algoma joining the NKSA the consensus so far was good.

Motion to approve Resolution No 38-16 (a resolution to approve amended and restated Water Service Agreement [with the Charter Township of Plainfield]).

Moved By Deborah Ellenwood, Seconded By James Powell

AGAINST = 0
ABSTAINED = 0
COI = 0
ABSENT = 0
Motion carried. Resolution declared adopted.

ZONING ORD AMENDMENTS-ACCESSORY BUILDINGS-SIZE AND NUMBER (ORD 287):

Supervisor Clary reported that the main provisions of the amendments would change the sizes allowed based on a sliding scale. She asked Planning Commission Representative Ellenwood to explain.

Treasurer Ellenwood explained that the revisions would grant lawful nonconforming status to accessory buildings which, as a result of a land division, become located on a parcel on which there is no principal building. This will make possible the preservation of farm barns or similar buildings which are no longer used in farm operations but which could be preserved if used for some other lawful accessory building use. She said the Planning Commission also reviewed a graph of neighboring township accessory buildings and noted that Algoma's requirements are at a smaller size.

Motion to approve Ordinance No 287 (an ordinance to amend the Zoning Ordinance of the Township of Algoma [Size and Number of Accessory Buildings; Limited Nonconformity of Certain Existing Accessory Buildings]).
Moved By Gordon Pickerd, Seconded By Wayne Bigney
FOR = 6
AGAINST = 0
ABSTAINED = 0
COI = 0
ABSENT = 0
Motion carried. Ordinance declared adopted.

PLANNING & ZONING APP/ESCROW FEE SCHEDULE AMENDMENTS (RES 41-16):

Supervisor Clary reported that this request to amend the fee schedule is due to the recent Siebers Trust case that went before the Zoning Board of Appeals and cost the township over $4,000 in expenses. It has been realized that the current fee schedule for the ZBA may be inadequate and therefore an amendment to the fee schedule has been requested.

In accordance with the Escrow Policy approved by the Township Board, applicants are required to reimburse the Township for its costs and expenses in ZBA applications and proceedings, as well as other zoning proceedings. These may include professional fees, such as attorney, engineering and planner fees; newspaper publication charges; expenses in mailing notices; and other expenses incurred by the Township regarding the proceedings. Escrow deposits are initial deposits only; if the Township expenses in a given case

exceed, or are about to exceed, the initial deposit, the applicant will be required to make a further deposit(s), to cover anticipated additional Township expenses in the matter.

Motion to approve Resolution No 41-16 (a resolution amending fees for the Township Planning and Zoning Application/Escrow Fees Schedule [Zoning Board of Appeals]).

Moved By James Powell, Seconded By Gordon Pickerd

Motion carried. Resolution declared adopted.

SADDLE RIDGE LIGHT SAD 2

CHANGE TO CONSUMERS LIGHT CONTRACT (RES 42-16):

Clerk J. Bigney reported that she'd been contacted by Consumers Energy who is requesting the Standard Lighting Contract the Township holds with them be amended to include 7 additional street lights that will be installed in the Saddle Ridge development off of Edgerton Ave.

The representative from Consumers reports that the current rate of $10.92 per lumin may change this fall. If it does increase, we may need to adjust the assessment for those residents who live in Saddle Ridge. We would do this through a ‘re-determination’ resolution.

The resolution to approve tonight simply approves the amendment to the current contract held with Consumers for the additional street lights.

Motion to approve Resolution No 42-16 (authorizing change in Consumers Engergy Standard Lighting Contract [Company Owned] Form 547).

Moved By Gordon Pickerd, Seconded By Deborah Ellenwood

ABSTAINED = 0

COI = 0

ABSENT = 0

Motion carried. Resolution declared adopted.

TOWNSHIP TRUSTEE APPOINTMENT:

Supervisor Clary reported that with the resignation of Mark Lemoine, the Township Board must act to appoint a new Board Member within 45 days of July 31, 2016. Given the recent August Election results, it is her view the Board should consider one of the two Primary Election winners, Robert Wilson or Tom Ungrey.

She recommended the Board appoint Bob Wilson to the open Township Board seat stating that Bob Wilson was appointed to the Planning Commission in the summer of 1987 and has served as a member for 29 years. Given

Mr.Wilson's knowledge she believes Mr. Wilson would be the best fit to fill the currently vacant seat due to the upcoming items that the Board will be tasked with. One of the major upcoming item includes the Developer Agreements between Algoma Township and the developers of the Fusion Property and the Lamb Farms property on 10 Mile Road. Mr. Wilson's experience and knowledge will be a valuable asset to the Board and the residents of this Township.

Additionally, with the current rate of growth we are seeing within the Township, the number of items the board is faced with, and future leadership transition, she believes Mr. Wilson's appointment to the Township Board will bring stability, knowledge, and seasoned experience to the Township Board.

Supervisor Clary then recommended the Township Board vote to appoint Mr. Wilson to the vacant seat on the Township Board effective September 1, 2016. She also recommended that Mr. Wilson be the Township Board's representative to the Planning Commission. She reported that she has already discussed this appointment with Deborah Ellenwood, the Township Board's current representative to the Planning Commission, who has agreed to this appointment and Mr. Wilson taking on the duty of Township Board representative for the Planning Commission.

Motion to approve Resolution 43-16 (a resolution to fill Vacancy in Office of Algoma Township Board [Robert Wilson]). This term will expire on November 20, 2016.

Moved By Gordon Pickerd, Seconded By James Powell

Motion carried. Resolution declared adopted.

SALE OF OLD FIRE ENGINE 21 & MISC FD ITEMS:

Chief Guerra reported that he has been looking into selling our old Engine 21 via various means. He has found that a company named Brindley Mountain out of Alabama looks rather promising. They offer some nice brokerage options if you list with them. They will list the truck online and in various magazines as well. Brindley collects a fee of 10% of the sales price if they put us into contact with an ultimate buyer. We are allowed to list the truck as well and if we find a buyer they collect no fee.

He stated that this truck should sell between $20,000 and $35,000, so the fees would be $2,500.00 to 3,500.00 with Brindley Mountain. The other option is to try to sell the truck in this area and go from there without the fee.

The Township's Disposal of Fixed Assets policy states the township clerk prepare a list of equipment recommended for disposal with an estimated value of $500.00 or more and shall submit the recommended disposal of fixed assets lists to the township board for approval. The Chief has some various other

items that have a small amount of value to other fire departments and/or public that he is looking to sell as well (Older Camera, older radios, old extrication equipment).

Estimated List Prices for items valued $500+:
Old Fire Engine 21: $35,000
Extrication Equipment (2 units): $500+ each
Camera and radios values all under $50 each

Chief Guerra continued by reporting on another issue with the new Fire Engine 21 stating that the generator has failed on it. He looked into the history and found that the generator was replaced 3 years ago in Cutlerville after it caught on fire due to a short in the wiring. He said to repair would cost at the most $4,600 and to replace it would be around $10,000. He just wanted the Board to be informed for now.

Motion to approve sale of old Fire Engine 21 estimated value of $35,0000; and extrication equipment (2 units) estimated value of $500 each.
Moved By Gordon Pickerd, Seconded By Deborah Ellenwood
Motion carried.

Monthly Report July 2016

Chiminey Fire	1
Structure Fire	1
P.I. Accident	7
Medical	36
Citizen Assist	1
Fire Alarm	4
Vehicle Fire	2
Hazmat	1
Grass Fire	1
Lock In	2
Illegal Fire	2
Power Line Down	3
Grass Fire	3
Assist Other Dept	4
Total	**68**

This month we had just one training that was comprised of medical training. This was a great month to slow down with our trainings because of the high call volume we received this month. As you can see we ended up with almost double our call volume from last month.

This month was rather dry in regards to the weather this was directly linked our brush fire calls for service to rise with three for the month. We also had one structure fire that was a barn fire caused by faulty wiring from a battery inside a boat. This was the second fire in as many years at the same address and was once again found to be accidental. It should be noted that an average person only calls for the fire department an average of once in their lifetime and the average fires someone has in their lifetime is almost zero. This residence is extremely unlucky in regards to this statistic.
